

THE GAZETTE.

MARTINSBURG, VA.

WEDNESDAY, SEPTEMBER 5, 1838.

THE INDIANS.—Gen. Gaines, in a letter to Gov. Cannon, of Tennessee, states that fresh difficulties are anticipated from the Indians on the Frontier. A letter had been received by Gen. Gaines from Lieut. Col. R. H. Mason, of the Dragoons, commanding at Fort Leavenworth, stating that the Cherokees of Arkansas had invited the Chiefs and principal braves of all the tribes on the Frontier, north of the Red River, except the Osages and Kanzas, to meet them in council on the Illinois River, a few miles above Barren Fork, on the 11th of the present month, for an object unknown to the whites, but which Col. Mason thinks to be to devise an organization and union of the different tribes, preparatory to striking a simultaneous blow upon all the border settlements of Arkansas and Missouri, from Red River to upper Mississippi. Gen. G. has applied to the Secretary of War for permission to raise ten thousand volunteers to be ready in case any demonstration of hostility is made, and his correspondence with Gov. Cannon is to the end that the Governor will promulge authority for the raising of volunteer companies, to be ready to come to his aid as soon as they may be wanted; to which Gov. Cannon replied that the number of men wanted from Tennessee, should be at his service at the required time (1st Sept.). The number required from Tennessee is from 3 to 5000. The same number is also wanted from Kentucky.

It is to be hoped that the alarm which has given cause to this step on the part of Gen. Gaines may prove unfounded, and that the purpose of this meeting may have been misunderstood. It is, however, well enough to be on the alert, and to be ready to meet danger, before it is too late to avoid the consequences. The Florida war, and its dreadful events, ought to teach policy to those in command of forces upon the lines. Should it really be the intention of the Indians to commence hostilities upon the Frontier, they will, if they become united, bring into action a force of more than twenty thousand strong—a force that will furnish any thing but child's sport to those who attempt to subdue them.—The plan of uniting the western Indians in a solid phalanx and waging a regular war upon the United States, was entertained by that sagacious but unfortunate Chief, Ocoela, and he succeeded in keeping clear of the forces in Florida, and emigrated to the west, (which towards the latter part of his life he was willing to do) heaven only knows what would have been the result. There may be some other bold and daring spirit now among the western Indians, who is equal in strength and power to the Florida Chieftain, and if there is, their concentration may give an immense amount of trouble, and cause the loss of many a valuable life before they are brought into subjection, or deprived of the power to do more harm.

A BASE ATTACK.—Mr. Thomas P. Moore of Kentucky, better known throughout the country, perhaps, as Free Tom Moore, made a most dastardly attempt to assassinate Mr. Prentiss, the Editor of the Louisville Journal, at Harrodsburg Springs, a few days since. Mr. Prentiss and a friend were walking in the yard of the Hotel at the Springs, when Moore approached him and fired the contents of a duelling pistol at him, but missed; Mr. P. then fired a pocket pistol at Moore, which also missed, when Moore had the pusillanimity to beg for quarters, stating that he was unarmed.

A Loco Foco meeting in Philadelphia a few days since passed a resolution approving the Sub Treasury scheme because it would prevent the Banks from embezzling the people's money. Fair, and softly, sirs, about the Banks embezzling the people's money; recollect that Sub Treasurers are endowed with the gift of legs, and that with the aid of that gift some of them are disappearing almost every week in the calendar with greater or less portions of the public funds.

COLD COMFORT.—The St. Louis Argus gives an account of the Missouri elections, and boasts that Van Burenism and Bentonism are still in the ascendant. It says:—"Our victory, while it spreads dismay and consternation into the ranks of the enemy, will rejoice and gladden the hearts of our republican brethren throughout the Union."

The victory of the Vanites is this: their congressmen are elected by reduced majorities, and the whigs, instead of electing 19 members of the House of Representatives and 4 Senators in the Legislature, have elected about 40 members of the first mentioned branch of that body, and 13 of the latter. A few more such victories will carry dismay, not to the opposers, but to the friends and supporters of Van Burenism.

A letter from Texas, dated July 16, states that the body of the Hon. James Collingsworth, Chief Justice of the Texian Republic, was found in Galveston Bay a few days previous. It was much mutilated, and bore upon it marks of violence, which led to the belief that he had been murdered.

The editor of the Globe and the notorious R. M. Whitney, have got at loggerheads, and are endeavoring to expose each other's rascality in as plain a manner as possible. All that any honest man can say of the quarrel, is, let them fight it out for it is no matter which gets the worst of the battle.

The contest for a seat in congress in the third congressional district in Philadelphia is between Mr. Charles Naylor, a whig working man, and Mr. Charles J. Ingersoll, a Van Buren democrat, who once declared that he should have been a Tory if he had lived in the days of the revolution.

The total amount of gold taken from all the mines in the United States during the last ten years, is said to be upwards of ten millions of dollars.

We learn from the Richmond papers that that city and the surrounding country was visited with a fine rain on Tuesday night the 28th ult.

MISSOURI.—The St. Louis Republican publishes a statement of the result of the Missouri Election, according to which, the complexion of the Legislature elect. will be as follows:—Senate, Whigs 13; Van Buren men, 20; House, Whigs, 39; Van Buren men, 58. Van Buren majority on joint ballot, 26; last year it was 52.

ILLINOIS.—The latest account we have from Illinois, is copied from the state Register, a V. Buren paper, which states that the V. B. Candidate for Governor is elected by about 500 majority—that Mr. Casey, conservative, is elected in one district; Mr. Reynolds V. B. in another; and that in the third the contest has been so close as to have the result doubtful.

Since writing the above, we learn from the Baltimore Patriot, that in 34 counties, out of 35, in the doubtful district, the vote stood, for Stuart, the Whig candidate, 16,340; Douglas, V. B., 16,327. Majority for Stuart, 13.

The Rhode Island election took place on Tuesday the 28th ult. But few results have come to hand, and those, like the last spring elections, in the same State, are all in favor of the Whigs.

The Vermont Congressional and Legislative elections took place yesterday, the 4th inst.

BALTIMORE MARKET.

From the Patriot of September 1.
Flour.—Howard street Flour.—Sales to some extent have been made at \$7.12 and \$7.25 from Stores, and some holders are firm at the latter price to-day. We quote the Wagon price at \$6.87, and \$7 for occasional parcels.—City Mills Flour.—There have been sales of parcels of standard, \$7.25 to \$7.37, full. One sale was made at \$7.12, cash. Sales of extra at \$7.50.

Wheat.—We quote the range of the market for fair to prime reds at \$1.40 to \$1.47. The Maryland reds, not being equal in quality to the Virginia, do not command quite as good prices. We quote the range of white Wheats at \$1.43 to \$1.55—to bring the latter price they must be very prime.

Corn.—White Corn has been pretty steady throughout the week at \$1 and 85 cts., and we quote those rates to-day. The sales of yellow have been generally made at 90 cts. To-day, owing to the want of vessels to take it away, the market for yellow is not apparently so firm.

Rye.—Sales of Md. with garlic, at 80 cts.—free of garlic would command more.

Oats.—Sales of Oats at 24, 35, and 26 cts.—One parcel of 1000 bushels was sold to day at 36 cts.

Whiskey.—Sales of bbls. have been made at 40 and 41 cts. We note a sale of 500 bbls. at 42 cts. and in Howard street the sales are 43 and 44 cts. The Wagon price of bbls. is 36 and 37 cts. exclusive of the barrel.

THE NEW-YORKER.

NEW VOLUME.
THE Sixth Semi-Annual Volume of the New-Yorker, Quarto Edition, will commence on Saturday the 22d of September next. The Publishers propose to issue it on entire new and beautiful type, and to make all other improvements which Experience may suggest or the wishes of its patrons may designate.

It is not now contemplated, however, that any radical change in the character or conduct of the work will be found desirable. Key, will be printed on a large imperial sheet of fine paper, in a Double Quarto form, making sixteen large and closely printed pages per week of reading exclusively, or two volumes per annum of 416 large Quarto pages each. Eight pages of each number (there being three wide columns on a page) will be devoted exclusively to Original and Selected Literary matter—Tales, Poems, Reviews, Biographical, Humorous and Descriptive Sketches; Anecdotes, Miscellanies, &c. In the department of Original Literature, the New-Yorker is regularly favored with contributions of some of the most eminent writers of this country, as is well known to all the readers of the work, though it is not deemed advisable to parade their names before the public in an advertisement. But a larger space is usually devoted to selections from the distinguished Reviews, Magazines and other periodicals of the day, American and Foreign, with occasional extracts from new books of great merit and interest. It will be the aim of the Editors to present in this, as in other departments, a faithful abstract of all that is passing, so as to afford a correct general idea of the Literature of the day.

Beside these, another page will generally be devoted to brief Critical Notices, announcements of works in press, and other literary items; and the six remaining to the Political, Foreign and General News of the Day. Under the Political head, questions of high public interest will at times be temperately discussed; but the general purpose of this department will be the careful presentation of all events and incidents of political moment occurring from time to time in the history of the States, or at the seat of Government. All Conventions, Nominations, &c., of importance, will be duly noted, and full returns of all Elections occurring throughout the Union will be regularly compiled for present information and future reference. The General Intelligence will likewise be prepared with an eye rather to correctness and utility than the gratification of a voracious and indiscriminate appetite for the novel and the marvellous. In fine, it will be the aim of the Editors, to present a useful and interesting journal, which may be perused with profit and satisfaction by persons of all pure tastes and all intelligent classes. The generous patronage heretofore extended to it affords an evidence that their labors have not been in vain.

The Quarto New-Yorker will be published every Saturday evening, in the style and manner above stated, at Four Dollars per annum, or Three and a Half when payment is made in advance. Five Dollars remitted free of Postage will pay a year, and a half, or three semi-annual volumes. Ten Dollars will pay for three years, or three subscribers for one year. Fifteen Dollars remitted free of charge will pay for five copies one year. Subscriptions are respectfully solicited. Address,
H. GREELEY & CO., 127 Nassau st.
Subscribers who forward the money for the new volume before its commencement, will be supplied with the other edition of the paper, up to the time of such commencement, without charge.

THE NEW-YORKER, Folio, or common paper form, is printed at the same office on Saturday morning, and made up of the greater part of the same matter with the above (excluding Music.) It is afforded at Three Dollars per annum or Two and a Half in advance; Ten Dollars, post paid, will be received as in full for five copies one year. Orders promptly attended to.

THE AMERICAN SILK GROWER,
AND FARMER'S MANUAL;
Embellished with appropriate Engravings, and by Ward Clancy & Brothers, Burlington, New Jersey, and published by Charles Alexander, Philadelphia.

THE First Number of this highly important and Valuable Work, is now ready for delivery to subscribers. We beg leave respectfully to call the attention of our citizens to the praise-worthy manner in which it is prepared, and for the promotion of which it has been put into operation. There has not probably heretofore been a time when the attention of the people in this country was so much engaged on the subject of the Silk Culture as at present; nor a time when there was so much interest in the subject, and for the promotion of which it has been put into operation. The capital thus bestowed yields a greater return than can be obtained from any other branch of husbandry. The editors have long been engaged in the silk culture, and intend heretofore to give it their entire attention. They have made extensive arrangements for feeding the silkworms, and cultivating that invaluable species of mulberry tree, the Morus Mutilicatus. And from their long experience in the occupation and extensive correspondence with silk growers, they believe they may say without ostentation, that they shall be able to make the AMERICAN SILK GROWER, useful and entertaining, and to communicate through its pages information so valuable respecting every branch of the silk business, as can be elsewhere obtained in the United States. A portion of the work will be devoted to noting the modern improvements of Agriculture, and such matters as are generally useful to the cultivators of the soil.

The Proprietors respectfully solicit contributions on Agricultural subjects generally—and also the Silk Growing Business in particular. Address the Editors, WARD CLANCY & BROTHERS, Burlington, New Jersey.

The work will be published monthly—every number comprising twenty-four large octavo pages, with the addition of a cover for advertisements, &c., and at the end of each volume, a complete table of contents will be furnished to subscribers. Terms one dollar a year, payable in advance, for single subscribers. Twenty subscriptions will be supplied for a whole year by forwarding a current ten dollar bill, free of postage.

All orders for the work, postage paid, will be promptly attended to, if addressed to the Publisher, C. ALEXANDER, Athenian Buildings, Franklin Place, Philadelphia.
Citizens, Silk Growers, Agriculturists, and others, who wish to procure this work from the present time, will please forward their names and the amount of subscription immediately.

LITERAL PREMIUM.
Any Agent forwarding 100 subscribers for one year, and a \$50 current bank bill, will be entitled to Ten Thousand Silk Worm Eggs, selected from the most approved varieties—whenever forwarded by mail to any part of the United States, at a trifling expense, and which, if properly attended to, according to the instructions which are promulgated in the work, will yield a profit considerably exceeding the amount of the price of subscription for one hundred copies.
